3. PRINCIPAL ACTIVITIES

Dateline Resources Limited (ASX: DTR) is an Australian publicly listed company focused on gold mining and exploration in Colorado, United States of America. The Company owns 100% of the Gold Links project which is located in Gunnison County.

The Gold Links project is comprised of several contiguous historic gold mines that have been consolidated by the company, and has produced up to 150,000 oz of high-grade gold (see ASX announcement of 8 February 2019).

Mineralisation can be traced on surface and underground for almost 6km from the Northern to the Southern sections of the project. Well documented records indicate that there are large areas that remain untested at surface and little to no exploration has been done below the valley floor.

Dateline also owns the Green Mountain project which includes Lucky Strike and Mineral Hill permitted gold properties and has recommissioned a gold processing plant located at the Lucky Strike Mine. The Gold Links and the Lucky Strike are located approximately 50km apart.

The Company is reviewing its interest in Fiji with a view to identifying a Joint Venture partner that would enter a farm in agreement on its Fijian assets.

4. REVIEW OF OPERATIONS AND ACTIVITIES

TENEMENT SCHEDULE			
Project	Number	Ownership	Location
Gold Links Permitted Mine	39 Patented Claims	100%	Colorado USA
Gold Links Permitted Mine	20 Unpatented Claims	100%	Colorado USA
Lucky Strike Permitted Mine & Mineral Hill Historic Mine	19 Patented Claims	100%	Colorado USA
Lucky Strike Permitted Mine & Mineral Hill Historic Mine	13 Patented Claims	100%	Colorado USA
Udu	SPL1387	100%	Fiji
Udu	SPL1396	100%	Fiji

Dateline seeks to create value for shareholders, through exploration activities which develop and quantify resource assets. Once an asset has been developed and quantified within the framework of the JORC guidelines the Group may elect to move to production, to extract and refine ore which is then sold as a primary product.

The company has spent the past two years consolidating ownership of several historic gold mines in the Gold Brick district of Gunnison County Colorado.

The company has undertaken a major development, exploration and acquisition program in Colorado that included ~1000ft decline and over 10,000ft of diamond drilling plus the recommissioning of the Lucky Strike Mill and the sale of our first concentrate produced from commissioning ore.

Assays from the drill core confirmed the existence of high-grade shoots of ore. This was a key driver in deciding to acquire additional ground in the region. The company has progressed from having a single lease over ~400 acres to owning ~1700 acres of freehold and all the underlying mineral rights. It is the first time in the regions history that a single entity has been able to consolidate the majority of the land that makes up what is referred to as the Gold Brick district in Gunnison Colorado.

In the process of acquiring the assets, the Company was able to extinguish USD20,000,000 of near term and contingent liabilities and retain outright ownership of all the assets.

As a result of the consolidation, the Company is now able to apply an understanding of the regional geology to implement targeted exploration programs that aim to prove up a JORC compliant resource.

FIJI

Metallurgical test work at the Udu polymetallic project in Fiji is ongoing. The project contains a JORC compliant inferred resource estimate of 4.53 million tonnes averaging 3.9% Zn, 1.2% Cu, 0.14% Pb, 0.26g/t Au, 29g/t Ag and 635ppm As using a 0.5% Zn cut off.

Results from test work are expected is ongoing and expected to be finalised in the March Quarter 2020. Board and management have determined to spend the minimum amount required to retain ownership of the project and actively pursue a joint venture or farm in partner.

1. CORPORATE INFORMATION

The financial report of Dateline Resources Limited (the “Company”) covers the period from 1 July 2019 to 31 December 2019 (the “Period”). The Company was incorporated on 3 February 2011.

In June 2011, the Company was listed on the Australian Securities Exchange (ASX) through initial Public Offering Prospectus dated 18 April 2011.

The Company is an Australian-based mineral exploration company with existing exploration projects in the Republic of Fiji and mining permits in Colorado USA. The address of the registered office of the Company is Level 29, 2 Chifley Square Sydney NSW 2000.

The financial report of Dateline Resources Limited for the Period was authorised for issue in accordance with a resolution of the Directors on 13 March 2020.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

(a) Basis of preparation

This general purpose interim condensed financial report of the Company for the Period has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Standard IAS 34 *Interim Financial Reporting*.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report.

It is recommended that the interim financial report be read in conjunction with the annual financial statements for the year ended 30 June 2019 and considered together with any public announcements made by the Company during the Period and up to the date of this report in accordance with the continuous disclosure obligations of the ASX Listing Rules.

The accounting policies and methods of computation adopted in the preparation of this financial report for the Period under review are consistent with those adopted in the annual financial statements for the year ended 30 June 2019. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

AASB 9 Financial Instruments replaces AASB 139 Financial Instruments: Recognition and Measurement and AASB 15 Revenue from Contracts with Customers replaces AASB 119 Revenue and AASB 111 Construction Contracts. These new standards are effective for the Company from 1 July 2018. The Company has performed an assessment and concluded that no transitional adjustments were required as a result of complying with the new requirements.

There are no other new accounting standards and interpretations that have been published and have been early adopted for the 31 December 2019 reporting period that are material to the financial statements.

(b) Going Concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and liabilities in the normal course of business.

During the period, the consolidated entity incurred a comprehensive loss of \$1,780,012 (2018: \$1,903,952 loss) a net cash outflow of \$3,354,811 (2018: \$15,821 outflow) and net cash out flow from operations of \$867,320 (2018: \$549,524). As at 31 December 2019, the consolidated entity also had a deficiency in working capital of \$1,036,394 (June 2019 : \$2,470,280 surplus in working capital) and cash assets of \$1,462,113 (June 2019 : \$4,816,924).

The ability of the consolidated group to continue as a going concern is dependent upon the group being able to generate sufficient funds to satisfy exploration commitments and working capital requirements. The directors are in the process of taking the following measures which have been designed to ensure that the going concern assumption remains appropriate and that the group is able to settle liabilities and commitments as and when they are due:

- Commence mining at Gunnison, as soon as possible;
- Commence milling at Sooner Lucky Strike as soon as possible;
- Seeking other funding opportunities through various transactions including future fundraising including mergers or joint ventures;
- By issuing equity to settle future liabilities, if appropriate; and
- Adopting all appropriate measures to ensure that the cashflows remain sufficient to ensure that it remains a going concern.

The directors believe that the going concern basis for the preparation of the financial report of the Group is appropriate. The directors note that should the Group be unsuccessful in implementing the above mentioned measures, there is material uncertainty that the Group may be able to realise its assets or discharge its liabilities in the normal ordinary course of business and at the amounts stated in the financial report.

Accordingly, there is a material uncertainty that may cast doubt on the Group's ability to continue as a going concern. No adjustment have been made in relation to the recoverability and classification of recorded assets amounts and classification of liabilities that might be necessary should the consolidated entity not continue as a going concern.

(c) New or amended Accounting Standards and Interpretations adopted

The company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

3. OPERATING SEGMENTS

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

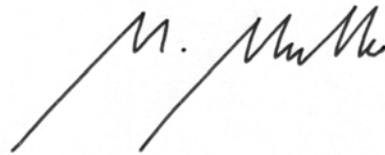

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's report.
